## SCHOOL CHILDREN GIVE GENEROUSLY TO LIONS FUND

Children of the Pass Christian Elementary School sold over \$56 of tickets to the Wednesday performance of the Warner Circus. A percentage of the profit, which went to the school, was turned over to the Lions Club to be used toward the purchase of a respirator. Miss Naomi Saucier, principal of the school, said, "We teachers can think of nothing more important to use the money for. Surely polio is a serious disease, and we are anxious to do our part."

## CARD OF THANKS

To our many white friends of this city and vicinity. We take this opportunity to thank all who gave so generously for the building of our church which was destroyed by the 1947 hurricane.

Through your cooperation, we were able to enter into the new church on April 13th, and continue the services throughout the week to a financial success.

May the sweet benedictions of God continue to be yours forever.

We remain yours in Christ,

## WHAT IS THE

What is the cost of the patient to the family, the community?

Dr. B. Aubrey Schneid, Assistant Director, State Search Section of the Cancer Society, gives us concerning that question.

"With 700,000 cancer deaths a year in the United States, which an estimated 70% incur hospital care, the economic burden which inflicting obviously is The American Cancer places the figure well over a million mark, with costs alone.

"There are many aspects which cannot be in terms of money. The patient confronts sudden need for an operation of normal life which is a serious illness, the loss, however, of a skilled employee—these are the problems which serious consideration. The community is involved, the community is into the picture.

"Nevertheless bills must be paid. What do they amount to? The average cost for treatment and cancer patient from diagnosis till cure or death, is not known. I know, fact, however, cancer has caused many self-sufficient families to become indigent, to lose their homes, their lives sustained by the ability in cases where the victim is the wage earner, whose income is unknown. Data of the study were on the hospital bills for patients treated for cancer during the year 1947.

For the eight hundred patients covered in this hospital bills ranged from \$225 per patient to \$1,800 with an average of \$500. The figures cover only the room, board, and such tests and medications as received while in the hospital. They do not include the surgeon's fee, the physician's fee, the home care, or any of the services or materials of the care of the cancer patient.

Assuming a prevalence in the United States of 100 cases per 100,000 population, and assuming that the average cost of care is \$500, the total cost of cancer care in the United States would be \$50,000,000 per year. The rate of hospital charges would place the over the hundred mark today."

### County Agent's Notes

#### Control Mastitis

By HOWARD SIMMONS

**MASTITIS**  
Don't let mastitis spread through your dairy herd. This is largely a management disease and can be brought to a minimum through good management.

**Causes.** Mastitis is caused by cattle sleeping on cold wet ground; injuries due to poor fences, stepping over high sills, high draw bars, logs in pasture, licks with rocks and sticks, being chased by dogs and boys, contamination caused by milking cows with sound udders after milking diseased udders, and wading in stagnant pools or mud.

**Control** by disinfecting hands and teat cups after milking each cow and before touching another's udder. Use strip cups to catch any flaky, ropey or bloody milk. Milk two streams from each teat over the gauge in the strip cup. This will catch about 40% of the new cases before trouble is otherwise noted. Start treatment at first sign of infection.

**COTTON INSECT CONTROL.** Plan now to insure against thrips damage to your young cotton. Now is the time to lay in your insecticides and get your spraying and dusting equipment in shape to use when the time comes for poisoning. With cotton planting making great headway, most cotton in the state will be ready for treatment around the middle of May. Apply controls when the cotton has two leaves.

Protect your 1952 cotton crop from all insects by carrying out complete poisoning program. Remember it takes proper timing, proper insecticides and proper application to do a thorough job.

**HARVESTING EQUIPMENT.** Don't lose time and money. It's not too soon to think about and do something about getting har-

vesting machinery in tip-top operating condition. If you wait until harvesting time gets here it may be too late. Time lost then means money lost too.

Get those combines ready for harvesting a good seed crop this year. Do it on time when the seed are just at the best stage of readiness. You can't do this, you know, if the harvesting machinery is broken down just when you need it.

**Machinery** for saving hay and silage will be needed before too long. So get them in shape and put up enough stored feed for your winter needs.

**DEADLINE.** All Mississippi sweetpotato growers who expect to sell, exchange, or give away seed sweetpotatoes or sweetpotato plants next season must make written application to the State Plant Board before June 1, 1952, for the required inspections. Applications should be accompanied by a postal money order in the sum of 50 cents. This money will be used to buy five certificate tags and 100 yards of certificate tape.

All growers whose fields are condemned will have the 50 cent fee returned to them.

In asking for the inspection, be sure to give your name and address, acreage in sweetpotatoes and the exact location of your farm and potato field.

**PASTURES.** Do's and Don'ts. Plan now to harvest seed from clover areas. Don't leave fields of crimson clover and sericea lespedeza for seed. If you do, the crimson will choke out the sericea. Buy your Sudan seed now for planting in May and June. Plan to mow your pastures twice this summer. Don't let horn flies steal the profits from your pastures.

Special state and federal taxes on the average motor vehicle in Mississippi this year will total \$111.00.

### Legislative Views

By WALTER JAMES PHILLIPS

The 1952 session of the Legislature adjourned for the session on the 12th of April. The last week of the Legislature was quite hectic, in as much as many measures were being pushed through in the dying days of the session.

A bill was passed which is sometimes referred to as the "Pork Barrel" bill, dividing some \$2,000,000.00 among the municipalities of the State. From this money, Bay St. Louis will get approximately \$10,000.00, and Waveland approximately \$3,000.00, distribution being based on population.

Another bill which passed in the closing days of the session was one which would allow municipalities and counties bordering on the Gulf of Mexico to hold elections to determine whether or not a sales tax of one-half of one per cent would be levied by these municipalities. Your Representative had been asked for such a measure, which would allow this tax to be imposed, and thereby voted for same. This bill requires that an election be held, and that at least sixty per cent of those voting in said election vote for the imposition of a sales tax. Your Representative felt that since a number of people had asked about such a bill, that it was only fair to vote for said bill, and allow the people of the municipalities to decide whether or not they wished

to impose this tax upon themselves.

The bill whereby the County is authorized to purchase the West 2000 feet of the present bridge across the Bay of St. Louis from the Highway Department passed the Senate, and by this time, the Governor should have signed this bill. Through the efforts of Congressman William Colmer, an expression has been obtained from the U. S. Engineers to the effect that this would not constitute a hazard to navigation. In order to clear up a bit of misunderstanding, I might state that the bill called for the sale to be made to Hancock County by the Highway Department at a nominal consideration, which is usually construed to mean \$1.00.

This is the last in a series of articles written by your Representative during this session of the Legislature. However, should

any events arise which are deemed by your Representative to be of sufficient interest for comment, then, articles will be submitted to the local newspapers for publication.

### Money where it counts

Gulf dollars—over \$13 million in 1951 for rolls, taxes, royalties, rentals, materials, and development and sales work, turn up regularly where they count—right in the trade channels of Mississippi.

Of this, \$7 1/2 million was paid to the more than 7000 members of Gulf's Mississippi family, which include 5000 men and women who share our production income through royalties or land rentals; 2500 in our sales organization which is spread all over Mississippi, among them being Gulf distributors and independent dealers and their friendly service station personnel in your locality; and another 350 people in our production and pipe-line departments who are now active in 43 out of Mississippi's 82 counties—carrying forward an extensive exploration program.

The taxes Gulf pays are another vital aid to Mississippi. In 1951 alone, Gulf's Mississippi operations meant over \$1,300,000.00 in revenue for local and state government.

But Gulf's greatest contribution to Mississippi progress is its pioneering in the sound development of the state's oil and gas resources. This work has required expenditures of over \$85 million since Gulf took its first Mississippi lease and has stimulated all channels of Mississippi trade. Today, after drilling 485 wells—135 of them dry holes—Gulf's income is still many millions of dollars less than expenditures.

Yet Gulf's work and faith in Mississippi continues—including the seismic survey of Mississippi's 800,000 coastal acres to be followed by the drilling of the state's first off-shore well. Gulf believes that the continued sound development of the state's oil and gas resources will help bring more opportunities for a better life to all the people of Mississippi.

Spring Clean-Up  
To Be Emphasized  
At Home Week

State College, Miss.—Spring clean-up to beautify the home and remove many fire and accident hazards will receive major emphasis during National Home Demonstration Week in Mississippi, April 27 to May 3, according to Miss May Cresswell, state home demonstration agent.

Cooperating with the National Safety Council in its annual Spring Clean-Up Campaign, Mississippi Home Demonstration Club members are being asked to go all out in the removal of accident hazards from their farms and homes.

Removal of clutter from stairways and seeing that steps and hallways are in good condition will help prevent falls, Miss Cresswell said. Falls kill an average of 60 persons a day throughout the nation.

Damp newspapers, oily rags and other rubbish stacked in dark corners may cause fires through spontaneous combustion. These should be removed.

During National Home Demonstration Week, club women will repair and replace electric light cords and check on the wiring of their homes. Frayed or otherwise damaged electric light cords may cause fires or serious "shocks."

Claiming special emphasis during the clean-up campaign will be educational activities pointing out the dangers involved in the use of kerosene or gasoline in starting fires in stoves or fire places in homes, the state agent stated.

Plans have been set up to make National Home Demonstration Club Week in Mississippi "one of the best in years," Miss Cresswell declared.

In addition to the safety emphasis stressed this year, club members plan to make their homes and grounds more beautiful than ever.

Other activities scheduled for the week of April 27 to May 3 include special demonstrations and meetings, both community and county-wide, at schools, churches, windows and other public places.

The more than 40,000 home demonstration club women in Mississippi will also stress one of the major activities of their organization, that of helping provide leadership for the state's more than 100,000 4-H Club members.

The following students will have

the honor of being valedictorian and salutatorian of the Eighth Grade Class: Linda Breath, valedictorian with an average of 96; Carol Horton, salutatorian with an average of 95. Rose Estapa and Frances Nichols both have an average of 91.50. Rose will write the Class Prophecy and Frances the Class Will.

Another one of our seniors, Helen Ruth Moran, took a civil service examination in Gulfport with the hopes of getting position in this vicinity. Helen Ruth reports that the examination was easy, especially the shorthand part.

FORD WINS AGAIN!  
TAKES FIRST PLACE IN CLASS "A"

IN THE 1952

Mobilgas  
Economy  
Run

New Ford Mileage Maker SIX Thriftiest in its Field!

Again this year!... Ford was first in gas economy over all cars in its price class in the Mobilgas Economy Run. In this toughest test, a Ford Six with Overdrive (optional at extra cost) averaged 53.855 miles per gallon and 25.463 actual miles per gallon. A very important contributing factor is Ford's Automatic Power Pilot which squeezes the last ounce of power out of every drop of gas. Pounds for pounds, Ford's All-New Mileage Maker Six is definitely the most economical low-priced car to run!

\*The AAA Contest Board determines the winner by "miles per gallon" formula. It uses equal strokes for all cars in each class regardless of size and weight. The miles per gallon equals the car weight (including passengers) in tons, multiplied by number of miles traveled, divided by number of gallons consumed.

"Test Drive" the Economy Winner Today!

For Economy plus Quality... Choose the '52 Ford!

## To Give Tuning Strip Free To Admiral TV Owners

Chicago, April 14—Admiral Corporation will give, free, to any of its more than 2,000,000 present television set owners with tuning strips and to any purchasers of sets in 1952, a tuning strip to make available to those who can't receive telecasts of the newly-authorized ultra high frequency (UHF) stations, Richard A. Graver, vice-president-electronic Admiral Corporation, announced today.

He said that no outside converter was required, and explained that all a serviceman had to do was remove one of the unused VHF tuning strips in the company's turret tuner and insert a UHF strip.

Admiral, first with the turret tuner, long has anticipated the use of ultra-high frequency in the manufacture of its sets.

"UHF stations will be a boon to small cities located far from television network lines," Graver said. "UHF telecasts will provide many hours of entertainment and educational programs for hundreds of thousands of persons that they bring."

Motor vehicle taxes were the biggest money raiser for Mississippi last year, providing 33 per cent of all state tax revenue.

Mr. and Mrs. Albert Mars of Aaron Academy were recent visitors in the home of Mrs. Robert Davis.

Mr. and Mrs. Willard Hoover announced the birth of their first child, a son, James Britt, in Pica-yune hospital Friday, April 18.

The baby, who weighed nine pounds, 11 ounces, is the grandson of Mr. and Mrs. Jack Whitney of Bayou LaCrosse. Mrs. Hoover is the former Jacqueline Whitney who taught in Waveland school.

## Why Millions Call Him "HOLY FATHER"

—Mr. and Mrs. Henry Osolnach and children visited her brother-in-law and sister, Mr. and Mrs. R. F. Morrow, Sunday.

—Mr. and Mrs. P. Schermitz, their daughter, Mrs. Lee Esau, and grandson, Chuck Esau, just returned from a trip through Mexico.

Catholic loyalty to the Pope is the cause of never-ending amazement to many non-Catholics.

They wonder how an exclusively spiritual leader can command the devotion of nearly four hundred millions of people. They cannot explain why this vast religious family...representing every race, color, language and political belief on the face of the earth...lives and grows through the ages, while man-made empires have their day of glory and then disappear.

What is there about this one man that causes people to speak of him in a hundred tongues as "Holy Father"?

We find the answer, of course, not necessarily in the holiness of the man himself, but in his Christ-given office. The answer is found by tracing the history of the Catholic Church...the history of 262 successive Popes...back through nearly 2,000 years to Christ Himself.

We know as a matter of historical fact that Christ did establish His Church...that He commissioned the Apostle Peter as its first head...that He sent His Apostles forth to teach men to observe all things He had commanded.

We know from the New Testament that the Church was actually organized...that it was governed by the Apostles under the leadership of Peter...that it was teaching Christ's truth far and wide, long before the last book of the New Testament was written and the books of the Bible were collected into one volume.

Christ's purpose in organizing a Church was to make certain that the good news of Redemption would be preached to all men...even to the end of the world. To accomplish this with fallible men, required that He establish a Church—divinely protected from error in transmitting His teaching through the centuries.

The Catholic Church traces its unbroken history back to the Apostles—back to Christ. And Catholics today call Pope Pius XII "Holy Father" because he is the lawful and historical successor to Peter, the first Pope. He is in our time...as Peter was in the first century...the Vicar of Christ on earth.

Would you like to know more about the Pope...why the promises made by Christ to Peter and his successors make the Pope the most important man in the world? Then write today for a pamphlet which we shall send you free and without any obligation. Ask for Pamphlet No. 4-N.

By MRS. JOE ALLEN  
**Sponsors Contest**

Miss Joan Shurtliff, who is a candidate for May Queen at the St. Joseph's Parochial School, sponsored a Baby Contest recently in the Memorial Park.

Prizes were awarded in Class 1 (babies from one month to one year old), Class 2 (babies from one year to three years of age) and to five years of age.

Judges for the contest were: Mesdames C. B. Hankel, T. R. Stokes and Elden DuRan Sr. Two of these judges are winter visitors to Pass Christian.

Contest winners were: Class 1, Michael Keel and Elizabeth Ann Horton. Class 2, Francis Hursey, Jr. and Jannette M. Allen. Class 3, Johnnie Bigue and Linda Lee Gariga.

Miss Shurtliff said the baby contest will be helpful toward increasing May Queen votes.

### EASTER DANCE FOR MAY QUEEN CANDIDATE

On Easter night a dance was given at the Beachcomber in Henderson Point with "Papa" Celestine and his band furnishing the music. Profits from the dance went toward votes for Miss Peggy Reid, a May Queen Candidate from the St. Joseph's parochial school.

### ELEMENTARY PUBLIC SCHOOL MAY GET PROTECTIVE FENCE

Plans are being formulated to construct a fence on the elementary school grounds of the Pass Christian Public School, according to Norman Hall, superintendent of public schools here.

Mr. Hall said "Such a fence would protect the grade school children who run into the street after balls, etc." Mr. Hall pointed out that there are 90 children in the public elementary school department and every available foot of play space is needed badly for their activities. Mr. Hall has the cooperation of both grade and high school students who take pride in keeping the school grounds clean, raked and in orderly condition.

### PARENTS PAY NO HEED TO NOTICES FROM SCHOOL

The parents of high school students in the Pass Christian High school have been mailed notices informing them of the failure of their children to meet the requirements in the prescribed school program several times this year. During October and November such notices were mailed

three times. Norman Hall, superintendent of the school, said he had only one written response from a parent in connection with these notices and five parents had come in for consultations. Mr. Hall says that because of the apparent indifference of parents to these notices of failure on the part of school students he has discontinued sending out the information since it takes time and costs money to continue the practice. Mr. Hall says his students expressed fear that some of the before they are promoted, and the senior class would be retained.

### BIDS INVITED FOR PURCHASE OF OLD SCHOOL

At a meeting of the Mayor and Board of Aldermen, held last Tuesday night, plans were discussed to make possible the erection of a Youth Center in Pass Christian.

The old Pass Christian Public School building, which later housed the Pass Christian Yacht Club, and the property on which it is situated is offered for sale. Any money obtained from the sale of this property is "ear-marked" for use toward a Youth Center. It is estimated that an additional ten or fifteen thousand dollars will be needed to build a suitable center.

City Attorney E. J. Adam has investigated the property and a purchaser is assured a clear title.

The need for a Pass Christian Youth Center grew out of the recent Chamber of Commerce essay contest in which 90 per cent of the students hinted at a need for a recreation center. Colonel Dayton L. Robinson, alderman for the first ward, was prominent in championing the cause of Pass Christian youth.

## O P S NEWS

After April 16, thousands of automotive and farm tractor repairmen who use flat rate materials or labor schedules to set charges to their customers need no longer file a report with the Office of Price Stabilization, when they elect to use a new edition of, or supplement to a manual on schedule use by them during the period December 19, 1950 to January 25, 1951, according to Robert W. May, District Director of the Office of Price Stabilization in Jackson.

However, such manuals and schedules must be approved by OPS and information identifying them posted on the premises by repairmen using them.

The action was taken in Amendment 4, Supplementary Regulation 3, to Ceiling Price Regulation 34.

**ENFORCEMENT ACTIONS**  
During March, enforcement divisions of the Office of Price Stabilization completed 1,403 actions against firms in six Southeastern states, according to George D. Patterson, Jr., Regional Director of the Office of Price Stabilization in Atlanta.

Patterson said the actions resulted in payments to the U. S. Treasury totaling \$17,302.91 in fines, penalties and refunds by firms for violating ceiling price regulations.

In addition to the fines, penalties and refunds, he said, injunctions were granted in Federal courts restraining 33 firms from further violations of OPS regulations. These suits were brought by enforcement divisions in district offices in Tennessee, Mississippi, Alabama, Florida, Georgia, and South Carolina.

mother of Dr. C. D. Taylor. Her many friends wish her a speedy and complete recovery.

Patterson also said that names of business men involved in full accounts of all violations which occur after May 1, will be made available to the public through appropriate district offices, under a new OPS policy announced by Director of Price Stabilization Ellis Arnall. Formerly, names of unintentional, or non-willful violators were not made public, he said.

### POULTRY FEED

Since protein content has little or no bearing on the value of corn oil cake, flakes and meal, which are used primarily in poultry fattening rations, the Office of Price Stabilization has removed a provision which related ceiling prices on these feed products to the protein content.

The action taken in Amendment 1, Supplementary Regulation 86 to the General Ceiling Price Regulation, permits sale of these feed products at the \$64.00 ceiling price, fixed in SR 86, regardless of protein content.

## HOLD JOINT MEETING

A joint meeting of members of St. Margaret's Daughters and the Altar Society of Our Lady of the Gulf Church was held in the Scout House Wednesday afternoon, with Mrs. V. J. Piazza, president, presiding.

Less of protein content. However, minimum protein requirements are being retained for other feed under SR 86 such as corn gluten meal and corn gluten feeds, which are also by-products of the wet corn milling industry.

**CADILLACS REDUCED**  
The wholesale factory dealer price of Cadillac passenger automobiles has been reduced by \$31.12 and a special order reflecting the price reduction at retail level will be issued immediately according to the Office of Price Stabilization.

The door prize was won by Mrs. M. Beyer who donated it to the treasury.

A report on the last meeting of the National Council of Catholic Women was given by Mrs. P. J. Treutel; and Mrs. D. W. Smithworth reported that the cake sale held during Easter Week had netted \$132.36. She thanked everyone who helped make the sale a success.

It was announced that Mrs. Alden Mauffray had collected \$34.00 for flowers for the altars during Easter.

It was voted that \$5.00 be donated from the treasury of St. Margaret's Daughters towards the building fund of the new chapel to be erected on the grounds of the Hubert Blank Memorial Home on South Beach which is operated by St. Margaret's Daughters of New Orleans as a retreat home and which provides vacations for indigent women and children of New Orleans.

The meeting was adjourned with prayer by Monsignor Gmelch and the hostesses for the day, Mesdames S. Preis and P. J. Treutel, served refreshments.

Members attending were Mesdames W. Yates, B. Fayard, M. Beyer, H. C. Glover, P. J. Treutel, and others.

A. J. Jones, New Orleans, La., was the guest speaker.

Complete details of the meeting will be published in the next issue of the Echo.

By MADGE ALLRED

**APRIL, CANCER MONTH**  
Did you know that more than 200,000 deaths will be caused by cancer during 1952? Of these about 70,000 could be prevented if diagnosed and treated early.

Home Demonstration Club members are helping call a halt to the rapidly mounting toll of this dreadful destroyer. Throughout the state club women are making bandages for terminal patients, raising money for cancer research and helping educate the people to the symptoms of early cancer. They are co-operating with the Mississippi Division of the American Cancer Society.

If your club has not reached its quota of bandages and money, redouble your efforts. Cancer must be ultimately controlled. Your help is needed.

**HOME GARDENING**  
Now is the time to make second and third plantings of radish, turnips, mustard and leaf lettuce among other spring vegetables. Planted now, these and other early vegetables will grow off rapidly and supply additional tender green vegetables for the dinner table.

It is also the time to get those warm season vegetables such as tomatoes, peppers, eggplant, okra, pole and bush beans, pole and bush lima beans, pole and bush snap beans, squash and cucumbers planted.

Don't have an early spring garden and then give up. Make the soil produce just as long as you possibly can. Mulch against dry hot summer weather. See your home demonstration agent for help in planning a long season garden.

**FREEZING EGGS**  
Eggs from the freezer? Sounds too wonderful to be true... but true it is. Buy eggs now while they are plentiful, or better yet freeze the surplus eggs that your own hens are laying. Remember when you need more eggs next winter and fall they are going to be higher.

In choosing eggs for freezing, use only clean, fresh, top-quality eggs. They can be frozen whole, or with yolks and whites separate. Here's how. Whole eggs—break into a clean bowl, stir just enough to break yolks and mix with whites. To each cup add either one-half tablespoonful of sugar or one-half teaspoonful salt, depending on use planned. Package and label according to use planned and freeze.

Yolks, separate from whites, stir to break and mix in one tablespoonful sugar or one-half teaspoonful salt, package, label and freeze.

Whites, simply separate, package and freeze. In freezing eggs any moisture vapor proof container may be used.

**NATIONAL HOME DEMONSTRATION WEEK**  
April 27 - May 2 has been proclaimed by Governor Hugh White as National Home Demonstration Week in Mississippi.

Spring Clean-up will be one of the major activities of Home throughout the state. Not only the cleaning up and prettifying up of the home but the cleaning up of accident hazards during the week will help reduce the accident toll in Mississippi homes.

### WEEKLY NEWS LETTER

by  
W. F. Bond, Commissioner State Department Public Welfare

Judging from the letters and telephone calls coming in daily, a good many persons would like to know the facts about what is to be done during the next two years for the needy aged people in the state.

In general, there will be an increase in the number that will be put on the Old Age Payroll and also an increase for those already on the Old Age Payroll. At the same time, a close inspection will be made to see if there are any on the Welfare Roll who should not be receiving help from the state. The new plans will be worked out by the State Welfare Department and the State Welfare Department as quickly as possible and will be ready for announcement within the next few weeks. The new plans, of course, will have to be approved by the Federal Authorities and cannot be put into operation until the beginning of the next biennium, which is July 1st, next.

### NCCW MEETS

Mrs. Alden Mauffray, president, presided at the April Meeting of the National Council of Catholic Women held in Long Beach last Wednesday in the auditorium of St. Thomas Parish School.

Members from Gulfport, Long Beach, Pass Christian and Bay St. Louis were in attendance.

Mrs. P. J. Treutler, secretary-treasurer, gave the treasurer's report.

Mrs. Hofman, who attended the state meeting in Jackson, gave a report of the meeting and stated that Bishop R. O. Gerow had stressed the importance of the teaching of Christian Doctrine by the laity of the church, and urged that more N. C. C. W. members join the Fraternity of Christian Doctrine.

Rev. Father O'Malley of Long Beach answered questions and spoke on the importance of study groups and the necessity for proper reading on subjects pertinent to the Catholic religion.

Recognition of outstanding home demonstration accomplishments during the past year will be given during the week.

### LAKESHORE

MRS. MALCOLM B. GREEN

Mrs. Reginald Moran will sponsor a benefit picture show, Saturday night, April 26, at the Lakeshore Civic Hall, for Mr. and Mrs. Malcolm Green. The entire show will be donated by Mr. and Mrs. Jules Schroth of New Orleans. In addition to a selected 3½ hour show, a new five dollar bill will be given away absolutely free, as a door prize to some person attending this benefit. Show time will be at 7 p. m. Adults 35c, all children 10c.

Easter Sunday afternoon Mr. and Mrs. Abe Williams entertained all Lakeshore children with an Easter Egg hunt at their home. Adults who helped Mrs. Williams give this party included Mrs. Harold McNutt, Mrs. Howard Barthold, Mrs. C. Feigle and Mrs. Curtis Asher. Cookies, punch, and eggs were given all present.

Games were played and the piano was played by young Miss Sylvia Tamplin, Miss Vesta Hartzfield and Mrs. Gordon Courge, who also led the children in hymn singing. Pictures of the guests were taken by Mrs. Curtis Asher. Cookies, punch, and eggs were given all present.

### Stomach Distress Is Gone After Ten Years of Suffering

One man recently stated that for 10 years he was troubled with stomach distress and was weak, felt worn out, and terribly run down and he had tried many medicines but with no effect. Recently he started taking INNER-TONE and says after only two days he started feeling better. System is regular, headaches are gone and he eats, sleeps, and feels fine, in fact is an altogether different man. INNER-TONE is the new formula of juices from nature's plants combined with blood building IRON and nerve strengthening VITAMINS B-1, B-2, and B-6. It has relieved many people who had never been really helped before by any medicine. Taken shortly before meals it mixes with your food and aids digestion "thus eliminating gas and bloating." So don't go on suffering! Get INNER-TONE at all leading drug stores.

On behalf of Mr. and Mrs. Malcolm Green, Mrs. Reginald Moran wishes to thank all who attended the cake walk at the Civic Hall Sunday afternoon.

Special thanks are extended to the following for their help in making this affair a success: Mrs. John Hourbight, Mrs. Floyd Green, Mrs. Eugene Jackson, Mrs. Milton Stoufflet, Rudolph Lusich, Henry Schwartz, Mrs. Raymond LaFontaine, Mrs. Joseph Alphonse, Mrs. John Necaise, Miss Hazel Yarbrough, Miss Hattie, Mrs. Viola Garcia, Agnes Zengarning, Mrs. Harry Thomas, Alvin Weinberg, and Vic Green. Thanks also to all the musicians who donated their services, also to the Bond Bread Company and Colonial Baking Company of Gulfport.

Mrs. Claude Vincent of Meyers Grocery in Bay St. Louis, won the two pairs of nylon hose given at the Civic Hall Sunday.

Mr. and Mrs. Arthur Miller and family and Gerald Price, Sr. of Bay St. Louis, and Mrs. Mary LaFontaine and children of Gulfport and Mr. and Mrs. Jules Schroth of New Orleans motored

to Lakeshore Sunday to attend the benefit cake walk.

The sympathy of our entire community is extended to Mr. and Mrs. Henry Schwartz, whose baby grandson passed away last week in New Orleans of double pneumonia.

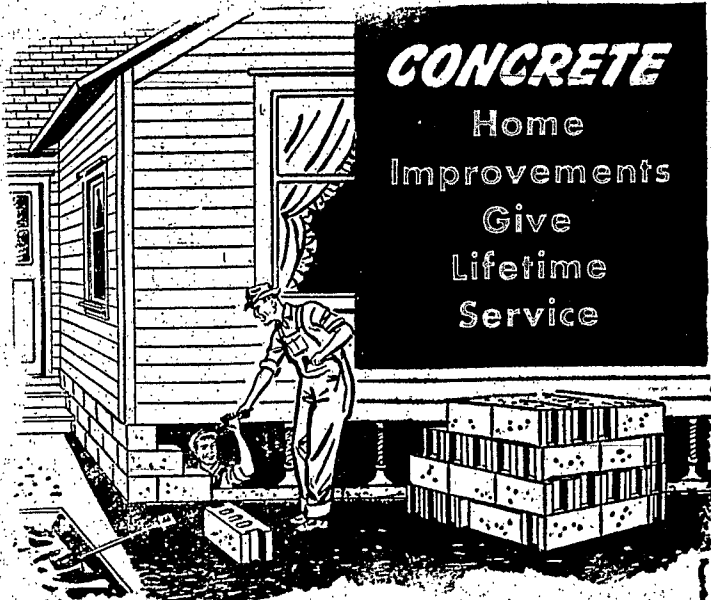

Last Tuesday evening Mr. and Mrs. Edwin Meschiet of Bay St. Louis, were guests of Mr. and Mrs. John Hourbight.

The operators of Sportsmen's Lake have erected two large signs on Highway 90 in an effort to divert traffic through Lakeshore.

Last Monday young Audis Stoufflet was taken to New Orleans for a check up on his recent eye operation.

The young daughter of Mrs. Leah Burns of Lakeshore and New Orleans is seriously ill in a New Orleans hospital with rheumatic fever.

Mr. and Mrs. Carlos Robias of New Orleans were guests of Mrs. L. Villamil and Mr. and Mrs. John Hourbight.

You can enhance the appearance of your house, add years to its useful life and reduce repair and maintenance bills by making needed repairs and improvements with concrete.

Sturdy concrete footings, foundations, walls and floors make your home stronger and safer. Outside improvements like steps, walks, drives and patios help keep the house clean too because they keep mud from being tracked in.

Concrete home improvements are moderate in first cost, require little or no repairs or maintenance and have extra long life. Concrete construction also is resistant to fire, storms, decay, termites and vermin. That's why it pays to build or remodel with durable, economical concrete.

ABOUT US

### Dear Parent:

Do you want to know ways that you can help a Girl Scout troop?

1. Lend kitchen, living room, back yard, attic for an occasional troop meeting or to store equipment.
2. Provide transportation.
3. Provide hospitality once or twice a year if the leader has a sudden emergency.
4. Provide "telephone help."
5. Become "headquarters" for cookie sale or other fund raising.
6. Help get all girls in uniform, have a uniform exchange.
7. Help leader with records, registration procedures, shopping for supplies.
8. Share a hobby with the girls.
9. Know what Girl Scouting stands for and interpret it.
10. Be willing to provide simple refreshments for an occasional troop meeting.
11. Help more girls have a camp experience.
12. Help get ideas for girls' needs.
13. Carry over responsibilities at home.

**ATTENTION, GIRLS SCOUTS**  
Book, Book, who has the book? We mean "Juletide Love: Girl Scout." You know, the faster this book circulates the sooner a new group becomes eligible for one of those sumptuous beach breakfasts at Mrs. Chamberlain's.

Furthermore, this book is delightful, quick reading. A rainy weekend looks possible—A good time for an hour or so of reading. Speaking of books—the Red Cross drive is on now just as we are learning First Aid, and a good book to read about one of our first nurses, Clara Barton, also written by Helen Boyd Higgins, would give us additional information. If you take good care of the book, and return it promptly as Girl Scouts should, Bay Chamberlain would gladly lend her copy.

**HATS OFF!**  
And a special Girl Scout salute to Mrs. Malcolm Coward for handling the cookie sale for Intermediate Troop 1 to John Chevis for lighting the furnace for the girls meeting at the Youth Center.

### TROOP REPORTS

**Brownie Troop 2, Cassandra Rhodes, Scribe**  
We had our regular meeting at the Methodist Educational building. After the business meeting we practiced for our investiture service which will be held April 24. Later we played games. The president for the week was Denise Tonkel, and the treasurer, Kathleen Schaeffer. We closed with the Friendship Circle.

The friendship circle ceremony is thus conducted: All Brownies stand in a circle and sing "Day is Done." Then it is hummed, as the president steps forward and gives the Brownie Promise with all heads bowed. Hands are crossed and a wish is made with right hand over left. The right hand pinches the left when the wish is made.

Here is the Brownie Promise: I promise to do my best to love God and my country, to help other people every day, especially those at home.

**BROWNIE THOOP 3**  
Rose Ann Thomas, Scribe  
We want to thank Mrs. Gold-

man for securing the Methodist Annex as a meeting place for us.

We are looking forward to camp at Gulfport from July 30 to July 11.

We played games and sang Brownie songs. Gloria Kimmel is our pledge.

### IMMEDIATE TROOP 1

Caroline Maurigi, Scribe  
We elected assistant leaders. They are: Baynard Chamberlain (Patrol 1), Jeanne Larroux (Patrol 2), and Mary Henderson (Patrol 3).

We made plans for each patrol to go on "hikes" next Wednesday, and we rehearsed for the investiture, practiced first aid bandaging, and also our songs.

### MISCELLANEOUS

Mr. and Mrs. Public, do you know who our various leaders are? These ladies give most generously of their time which involves far more than that spent in the actual meeting with us. They in one respect, are like the Old Woman who lived in the Shoe, for they have so many children, yet they know what to do! They have over 100 children. Here are their names. I wish I could write them in gold.

**Brownie Troop 2:** Mrs. Dennis Tonkel assisted by Mrs. George Kramer.

**Brownie Troop 3:** Mrs. John E. Morrill, assisted by Mrs. Ezeldia Ling and a junior assistant, Ethel Ann Raymond.

**Intermediate Troop 1:** Mrs. Don Chamberlain, assisted by Miss Robin Longre, Mrs. J. H. Benvenutti and Mrs. Malcolm Coward.

## Bernard Farr Named "Soldier of Day"

Mr. and Mrs. Horace Farr are in receipt of the following letter from Lt. Col. J. B. Bowers Jr., commanding officer, telling them that their son, Bernard, was picked as "Soldier of the Day" at Camp Roberts, California.

The letter reads as follows: My Dear Mr. and Mrs. Farr: Bay St. Louis, Miss.

My dear Mr. and Mrs. Farr: I am sure you will be glad to know that your son, Bernard, a member of Company "B", 38th Armored Infantry Battalion, was selected as "Soldier of the Day" at a guard mount inspection on April 8, 1952.

As Regimental Commander, it is a pleasure for me to tell you this title was gained in competition with other soldiers and that your son, by his personal appearance, knowledge of duties and soldierly actions, has gained the respect of his superiors and his fellow soldiers.

This is being sent to you for your information and that you may know your son's welfare is a matter of personal interest to me and my entire command.

## Honor Couple

Mr. and Mrs. R. E. Porter Jr., entertained at a kitchen shower last Tuesday night in honor of Miss Mary Kathryn Patrick and James A. Evans Jr., who will be married next month.

Guests were young married couples and members of the immediate families. Out-of-town guests were Miss Patricia Patrick of Columbia, sister of the honorees, and Miss Audrey Thomson of New Orleans, cousin of Mr. Evans.

## Entertain at Barbecue

Dr. and Mrs. James A. Evans entertained at a barbecue supper Thursday night in honor of Miss Audrey Thomson of New Orleans and Hugh Johnston of Berkeley, California, who will be married in New Orleans April 26.

Approximately 50 guests were present, all close friends and relatives of the young couple. Miss Thomson, Dr. Evans' niece, is a frequent visitor here.

## MAIL BOX IMPROVEMENT

The Post Office Department has designated April 27 to May 3 as Rural Mailbox Improvement Week this year. In continuation of the valuable work in previous seasons to repair or improve the rural mailboxes of the nation, a vigorous campaign will be launched again this spring, to carry on this worthwhile project.

Here are a few pointers for R. M. I. Week:

(1) See that posts are securely erected—do not leaning badly—and that box is fastened securely.

(2) Replace obsolete box if it is hard to get into it, or if it is hard to see into for letters that you want mailed.

(3) Name should be painted on side of box which carrier approaches (or can be on front of box if several boxes are closely grouped together.)

(4) It is a big help if several boxes are neatly and closely placed on a plank extending between two posts.

(5) Bottom of box should be 42 inches above roadway, and should be on an arm extending out away from the post, in such a manner that it can be easily reached, with all obstructions (including snow and parked cars) promptly removed.

(6) Fill ruts with crushed rock or broken brick or cement.

(7) Drive your own car up to the box. If you can easily reach your mail from behind the wheel of your car, reaching out the right hand side as the carrier is required to do, then the chances are that your box is pretty well located. But better yet, talk to your carrier about the proper location, and the correct setting.

(8) Your carrier serves this correctly set, it lightens his work and saves him time so that he can quickly serve other patrons farther along his route (and saving his time can save the Government money.)

(9) This will be appreciated, for with the rapid development of housing on across, the work load of most rural carriers has more than doubled in the past few years.

(10) Your mail box is the front door to your home. Since it is usually in front of your home, its neat appearance will add considerably to the neat appearance of your home. Ruts filled - box and post painted white - possibly a few flowers planted behind it.

An inspection by the Post Office Department will be made of all rural mail boxes during the month of May and a report of their conditions must be submitted to Washington. It is therefore requested that patrons of this service cooperate with the Post Office Department in their attempt to have all mail boxes put in first class condition and present a neat appearance before this inspection is made.

## To Hold Services

## GULF TESTS ABILITY OF ITS DRIVERS

Mississippi Highway Patrol and Jackson police officers charged with accident prevention and safe driving regulations. Inset in the Gulf Refining Company's driver education program which is testing the driving ability of all Gulf employees in Mississippi in the production and law departments. The officers approved of the manner in which Mrs. Louise Flournoy, law department employee, put a Gulf test car through the paces on a closed course, designed to teach drivers proper, safe and sane driving habits.

If you get by those you shouldn't have any trouble driving between two rows of small rubber balls set eight inches apart without knocking them over? If that sounds easy, maybe you would like to execute a figure eight, backward and forward, between oil drums spaced 20 feet apart without touching any of them.

Those are but three of a number of driving tests being given Mississippi employees of the legal and production departments of the Gulf Refining Company.

Gulf's driver education program, one of the most extensive being conducted in American industry, will cover some 3,000 Gulf employees and members of their families, according to A. B. Wilson, Gulf Safety Supervisor in charge of the program here.

Objectives of the test course are to determine driver's ability to steer vehicles in close quarters, ability to maneuver through the limited space of an offset alley at an intersection, ability to back vehicle down an alley to a loading dock, ability to park parallel, ability to maneuver right wheels of a vehicle on a straight path, a given width and ability to judge clearance by steering through a space that becomes progressively narrower.

In addition to undergoing the various driving tests, each Gulf employee is required to attend a lecture course at which the various phases of safe driving are discussed. One of the most important phases of this portion of

## STUDENT COUNCIL HOLDS ELECTION

The Student Council of the Pass Christian High School held a democratic election last week and a count of ballots revealed 1952-53 officers for the organization to be as follows: Dan Berdois, president; Charles Mangum, vice-president; Carol Ladner, secretary-treasurer.

The Student Council was organized at the beginning of the current school year by Superintendent of Schools Norman Hall, in an effort to develop civic pride among students as well as to train high school students in democratic principals. When asked how the council was working out, Mr. Hall said "Only fair this year. Students seem reluctant to accept responsibilities. Some students still cling to the rules of gang law and consider it unfair to report bad conduct or lack of cooperation of other students."

Guests of Mr. and Mrs. Forrest Luke, Sunday were Mr. and Mrs. H. C. Ward and family of New Orleans.

Prof. J. D. Mollere Jr. is visiting his parents, Mr. and Mrs. John Mollere.

## Beninate - Scafile Wedding Celebrated

MR. AND MRS. JOHN V. BENINATE

Miss Rita Mae Scafile, daughter of Mr. and Mrs. Arthur A. Scafile of Bay St. Louis, and John Vernon Beninate, son of Mr. and Mrs. John Beninate of Algiers, La., were married at Our Lady of the Gulf Catholic church, Saturday, April 19, at 11:00 a.m. by Rt. Rev. Msgr. A. J. Gmelch.

Miss Scafile, who was given in marriage by her brother, Andrew Joseph Scafile, wore a ballerina length gown with a bodice of chantilly lace and a full nylon skirt. The tight bodice was finished with a round neckline and scalloped collar embroidered in seed pearls. A small crown of seed pearls held the finger tip veil in place. She carried a cascade bouquet of white roses and stephanotis with a silver rosary entwined in the flowers.

Miss Mary Frances Scafile, sister of the bride, was maid of honor; the other attendants were Miss Serida Beninate, sister of bridegroom, and Miss Joy Starita. They wore ballerina length dresses of ice blue nylon made with strapless bodices; panels of ice blue lace finished the skirts. They wore nylon stoles, and in their heads, they wore bands of maline with a side effect of stephanotis. The maid of honor carried a cresent shaped bouquet of yellow iris, and the brides carried small oval shaped bouquets of the same flowers.

The flower girl, Vicki Ann Segar, cousin of the bride, wore a white dress with the waist fashioned of lace, and the full, floor length skirt of nylon. She carried an old fashioned bouquet of white iris tied with yellow satin ribbon. Richard Astby of New Orleans was best man; groomsmen were John Dickman and Arthur A. Scafile Jr.

Professor Joseph Hammersbach played the traditional wedding marches, and preceeding the Mass, Miss Sandra Scafile, sister of the bride, sang Ave Maria. At the Officiary, Mrs. Paul Laguenes sang Panis Angelicus, and at the Communion, they harmonized "Lord, I Am Not Worthy."

Receiving with Mrs. Scafile at the reception which followed at Hotel Reed, was the groom's mother who wore a navy crepe dress with a gardenia corsage. Mrs. Scafile was attired in a navy shantung dress with a gardenia corsage.

The bride's table was covered with a lace cloth and was centered with a four tiered cake. Gladioli and daisies were used throughout the reception rooms. Mrs. W. L. Bourgeois presided at the cake table.

For traveling, the bride wore a blue linen suit with a navy straw hat trimmed in white and navy accessories.

Following their return from a trip to the Carolina mountains, the couple will reside in New Orleans.

Mr. Beninate, a graduate of L. S. U. with a major in chemistry, is employed as chief chemist for Swift and Company.

Mrs. Beninate is a graduate of St. Joseph Academy in the class of 1950.

## "See Mississippi First . . ."

### Through Eyes of Tourists

Mississippians can get a good look at themselves through the eyes of tourists entering the state if they take the time to inspect the results of a survey of Mississippi's tourist market released recently by the Bureau of Business Research at the University of Mississippi.

The out-of-state visitors, over 90 per cent of whom traveled by automobile over what they termed as "good highways," had some very definite and revealing comments of both a favorable and critical nature to make in comments they were requested to make in answering questionnaires submitted to them in various sections of the state.

The questionnaires were distributed during the summer months of 1951, so heading the list of critical comments was the fact that Mississippi is "too hot and humid." However, the warm welcome they got from Mississippians helped to offset the debits side of the ledger, and the most frequent favorable comment had to do with the "friendliness, courtesy and hospitality of residents." Almost one third of all respondents offering any comment made specific mention of the fact that Mississippians are living up to the friendly traditions long associated with the Deep South.

In fact, fewer respondents offered adverse criticism or suggested improvement than told what they liked about Mississippi, the survey reveals. Of the 63 questionnaires of eight questionnaires showing any comment at all, favorable observations were included. Only about one fifth of them carried unfavorable comment. There was also less agreement on specific improvements needed in the state's recreational facilities than on particular merits of the state.

The Mid-West, the survey shows, contributed the biggest crop of tourists, 30.2 per cent of all those who responded to the questionnaire. The Southwest in second place, and Middle South third, were almost equally represented, with only 13 per cent hailing from the South Atlantic region.

Motorists were particularly impressed with Mississippi's excellent highways, but in the same position in the critical comments column was the fact that they thought gasoline taxes were too high. Other things about Mississippi which tourists liked, in the order of their appearance in questionnaires, were: (3) scenery, (4) quality of lodgings, (5) reasonableness of food, (6) historic sites and/or museums, (7) progress of state, (8) cleanliness of cities, and (9) reasonable cost of lodging of food.

Although critical comments didn't appear as frequently as favorable mention, these were the dislikes in the same order: (3) poor markings on highways or in cities, (4) quality of food served or lack of eating facilities, (5) poor lodging, (6) liquor and gambling on Gulf Coast, (7) need for more roadside tables, (8) sales tax, (9) Vicksburg bridge toll, (10) poor conditions of homes in state, (11) food costs too high, (12) lack of cleanliness, (13) loose livestock on highways, (14) poor driving habits of state residents, (15) lack of liquor, (16) racial discrimination, and (17) lack of entertainment.

An average of 2.75 tourists occupied each car in which an occupant responded to the questionnaire, and the salary of the majority of visitors questioned was between \$5,000 and \$10,000 annually, with 23.8 per cent averaging below \$5,000, and 21 per cent with salaries exceeding \$10,000.

The fact that tourists like this spent an estimated \$225,000,000 in Mississippi in 1950, as revealed by the Agricultural and Industrial Board, indicates the importance of these visitors and the value of knowing their likes and dislikes in efforts to attract them and keep them coming back.

One typical comment which appears frequently on the list of remarks came from a couple who were impressed by the hospitality. They said:

"We greatly enjoyed the hospitality and friendliness of all the people we had contact with, and their 'y'all' hurry back now, hear? was music to our ears. We did not enjoy the heat, but suppose that can be done about that except to suggest that we come in the spring instead of summer."

Another summed it up thus: "I loved every minute of it—courteous waitresses, friendly atmosphere . . ."

One tourist, decrying the fact that livestock were on the highways, had this outspoken criticism: "Cows and horses on highways—one of the silliest, most dangerous, and untidy situations for tourists and motorists."

Other comments regarding rest room facilities and service stations followed this line of thought: "Rest room facilities except in larger towns not very good . . . Filling stations are dirty." Yet another made an opposite observation: "Lovely food, nice tourist courts, cleanliness, friendliness . . . good roads."

"What we noticed most," said another, "was that almost everyone treats us as a friend. All greet us with 'howdy' instead of just passing us up."

Gasoline and bridge tolls were one pet peeve of visitors as evidenced by such comments as these: "The toll bridge at Vicksburg makes an exorbitant charge—\$1.40 for us foreigners just once. We enjoyed very much a visit to the battle ground museum and surroundings, also driving around Jackson. The highways we found relatively good, but paid the most for gasoline of any state visited." Roadside parks came in for very favorable comment, but a few suggestions were made that more be put into use and that drinking water and rest rooms be added.

Although almost every person answering the questionnaire liked the state's good roads, some were critical of markings, slow traffic and driving habits of Mississippians.

Typical are these comments: "We liked fine roads, well-graded curves; disliked no signs to
